Scholarly Communications Workshops – Fall 2014

Presented by the George A. Smathers Libraries

Registration at least 24 hours in advance is REQUIRED for online workshops.
Registration is requested, but not required, for in person workshops.

Register at http://bit.ly/UF_ScholComm

For more information, contact Christine Fruin at christine.ross@ufl.edu or (352) 273-2710.

Copyright Essentials for the Graduate Researcher

Working on your thesis or dissertation and including copyrighted works of others in your paper? Confused about the publication and deposit options available to you for your dissertation and wondering what impact these options will have on later publication of your work? This workshop will answer these common copyright questions that graduate students encounter as they write and prepare to publish

their own thesis or dissertation. This workshop is a must for all graduate students working on a thesis or dissertation!

Library West, Room 211:	Online:
Sept. 10, 12:00-1:00 PM;	Sept. 22, 7:00-8:00 PM;
Oct. 2, 12:00-1:00 PM	Oct. 29, 2:00-3:00 PM

Copyright for Online Teaching

Whether you are preparing an online course for UF students or getting ready to launch a course through Coursera, this workshop will assist faculty, instructional designers and others in navigating the copyright issues that arise when delivering course content online. The workshop will cover the law of fair use and the various alternatives available to delivering copyrighted content through the eLearning and Coursera platforms. Special focus will be on incorporating images, audio, and video in online courses.

Library West, Room 211:	Online:
Sept. 12, 12:00-1:00 PM;	Sept. 18, 12:00-1:00 PM;
Oct. 15, 12:00-1:00 PM	Oct. 15, 4:30-5:30 PM

Protect your Rights as Author: Understanding Copyright and Open Access

This workshop will teach participants about how they can find and interpret the copyright policies of publishers using Sherpa/RoMEO and other resources; how to read and understand the terms of publication agreements including archiving rights; and how to preserve their rights as authors through open access and publication agreement addenda.

Library West, Room 211:	Online:
Nov. 5, 12:00-1:00 PM	Nov. 12, 4:30-5:30 PM

Brown Bag Series to Feature Campus Wellness Experts

Want to learn more about the latest digital technologies and apps to support your fitness goals? Fed up with diets that don't work? Curious how to fit in some exercise at your desk?

This fall, UF-UF Health Wellness, in partnership with the UF Center for Digital Health and Wellness, is pleased to introduce a series of brown bag lunches to support you in your wellness goals.

All sessions will be held from noon to 1 p.m. at the Center for Digital Health and Wellness, located in Room 250 of the Florida Gym. [Register to attend any of the following courses via the myUFL system](#) by searching for the course code listed below.

Can't make it in person? Each session will be recorded and made available via Mediasite. Bookmark the [UF-UF Health Wellness](#) website and watch for links to these presentations after each event has been held.

GET052 Wearables and Fitness Apps: Top Trends for 2014 and How Technology Can Help You Improve Your Health

Rebecca Mercado, MS, CHES

Program Coordinator, UF Center for Digital Health and Wellness

Tuesday, Sept. 16

Wearables are quickly becoming the new fashion statement as they grow beyond the basic step-counting bracelets into more sophisticated movement-tracking devices that can distinguish between walking, running, swimming and biking. Fitness apps seem to be multiplying faster than we can count, but which ones are the most popular and do they really work? In this discussion we will explore some of the top trends in wearable technology as well as fitness apps and how you can use these gadgets to improve your own personal health.

GET053 When Diets Don't Work, What Can I Do?

Karin Kratina, PhD, RD, LD/N

Nutrition Therapy Associates; Consultant, UF Health Eating Disorder Recovery Center

Tuesday, Sept. 30

We are born with a natural ability to self-regulate food intake for optimal health and weight. Unfortunately, this ability gets lost when we use calorie counting and portion control, when we restrict food intake, when we join the Clean Plate Club and at times, even when we try to eat healthfully. But "attuned eating" is our birthright, and we can reconnect with this ability to eat when hungry, naturally lose interest in food as we get full and easily walk away. If you are ready for a radically different approach to eating and weight management, join us for this introduction to attuned eating. You will learn specific techniques to help you reconnect with your eating wisdom and find freedom from eating and weight struggles.

GET054 Deskercise

Morgan Papworth, MS, CHES

Wellness Coordinator, GatorCare

Thursday, Oct. 23

Feeling tied to your desk lately? You're not alone. Many American workers have a desk job and are sedentary for eight or more hours per day. This type of inactive lifestyle puts you at greater risk for muscle loss, type II diabetes, heart disease and more. In this presentation, you will learn fun and easy ways to build activity into your workday-often without even leaving your cubicle!

GET055 Beyond Nutrition

Kathryn Parker, RD, LD/N

Program Manager for Diabetes Education, UF Health Shands

Tuesday, Nov. 4

The difference between the calories you need (for health) and the calories you want (the extra) may be affecting your health. This presentation will reveal how you can include all those forbidden calories in your diet without wearing the extra

calories. Learn how many calories, fat grams, sodium, cholesterol, fiber, protein and carbs you need each day.

Grant Funding Opportunities in Pediatric Oncology

I want to be sure that you are aware of a funding opportunity from the a consortium of funders of pediatric oncology, including: Arms Wide Open Childhood Cancer Foundation, Bear Necessities Pediatric Cancer Foundation, Rally Foundation for Childhood Cancer Research, and The Truth 365. Please forward this note to anyone else who might be interested. If you or any of your colleagues choose to pursue an application, please let me know -- I would be happy to help with it.

Arms Wide Open Childhood Cancer Foundation, Bear Necessities Pediatric Cancer Foundation, Rally Foundation for Childhood Cancer Research, and the Truth 365

\$50,000 - \$100,000 per year (one year of funding and can reapply for additional funding), no IDCs

LETTER OF INTENT due October 9, 2014 at 5:00 p.m. EDT

Arms Wide Open Childhood Cancer Foundation, Bear Necessities Pediatric Cancer Foundation, Rally Foundation for Childhood Cancer Research and The Truth 365, national non-profit organizations dedicated to eliminating childhood cancer through innovative research in pediatric oncology, invite letters of intent for funding of projects in the following areas:

- Basic Science Research
- Clinical Translational Research
- Pediatric Oncology Research Fellowship
- Alternative Therapy Grants (using natural agents, integrated, personalized or holistic approaches)
- Survivorship Grants
- Consortium Grants (two or more institutions working together on a research project)

Funding:

- Each Research Grant will be awarded up to \$50,000 per year
- A minimum of two Junior Faculty Development Grants will be awarded each up to \$50,000 per year at the instructor or assistant professor level
- A minimum of two Fellowship Grants will be awarded up to \$50,000 for second, third or fourth year fellows (Fellows must apply, as the Principal Investigator, not their mentor)
- Two consortium grants will be awarded one-year each up to \$100,000 per year.
- All grants are for one year and the applicant may reapply for additional funding
- We also do not pay indirect costs.

Pediatric Cancer Research Project Priority Areas:

- Solid tumor
- Underserved areas of tumor types

- Brain tumors
- Blood Cancers
- Innovative approaches to pediatric cancer research, which could potentially become advanced studies or clinical trials with initial seed support at any research level
- Projects with translational components: studies likely to lead to a clinical trial in the near future (All academic ranks, Instructor to Professor, may apply)
- Survivorship studies (All academic ranks, Instructor to Professor, may apply)
- Personalized, alternative, or integrative research proposals (All academic ranks, Instructor to Professor, may apply)
- Grants for junior faculty development in pediatric cancer research at the instructor or assistant professor level
- Pediatric Cancer Research Fellowships for second, third or fourth year fellows (Fellows must apply, as the Principal Investigator, not their mentor)

Please let me know if I or my colleagues can help you with the application.
