Getting UF Email on Your Phone and Other "How To" Video Resources

The UF Information Technology division's YouTube channel, [GoGatorsUFIT](#), has short, informative videos to help you maximize your IT at UF experience. From learning how to set up UF email on your phone, using classroom technologies, protecting your personal and credit card information, to downloading and using UFApps, these videos will help you both inside and outside the classroom. Some of the videos available include:

- [Getting UF staff email on your iPhone](#)
- [Classroom Technology Tutorials](#)
- [UF's Teaching and Learning Environment](#)
- [Five Tech Problems to Avoid at UF](#)

If you are having any issues with e-Learning, logging on to a UF system or service, or need support with any campus tech issue, please contact the UF Computing Help Desk at (352-392-HELP/4357) or helpdesk@ufl.edu.

People's Scientific Conference & FCHW Coalition Summit

The University of Florida Health Disparities Research and Intervention Program and the Florida Community Health Worker Coalition invite you to attend a conference/summit that will focus on Community Based

Participatory Research and the leadership roles that Community Health Workers often assume in this type of research.

Registration for the conference is now open! Early bird registration: now through July 31; Standard registration: August 1 through September 15.

To register, please visit the [Conference Registration Website](#) and be sure to visit and like our [Facebook Page!](#)

Bioscience Training for Professional Development

Lean Six Sigma Green Belt Certification

Lean Six Sigma is a strategy for process improvement, using disciplined problem solving to eliminate waste, reduce variability and optimize outcomes. Green Belts are typically process managers/leaders who oversee a couple of projects each year in their specific area of their organization, while maintaining regular work duties. Whatever function you have in working in a regulated environment, both efficiency and quality are essential to remain competitive in the Bioscience industry. Learn the basics of a time proven problem solving and process improvement approach through highly interactive, self-paced e-Learning followed by scheduled instructor-led virtual classroom sessions to reinforce the course content. This course requires about 5 ½ hours per week for 8 weeks, of which 4 hours are self-paced independent study, and 1 ½ hours scheduled virtual classroom time.

DATE: July 12th - September 6th, 2017 TIME: Wednesday ONLY 12:00 p.m. - 1:30 p.m.

REGISTRATION FEE: \$2500

Core Concepts in Biomanufacturing and Quality Systems: Applications of cGMPs

This 2-day, certificate short course provides future or current employees a comprehensive and applied understanding of how regulatory compliance is built into all aspects of a company. Using a blend of hands-on applications and lectures, course instructors integrate current Good Manufacturing Practices with core concepts of the manufacturing process, facilities, quality systems, and documentation to build a solid understanding of the development, manufacture, testing, and release of a regulated product. (Class size is limited to 20)

DATE: Thursday & Friday, August 10-11, 2017 TIME: 9:00 a.m. - 5:00 p.m.

REGISTRATION FEE: \$250

UF Postdoc Editors Association

The Office of Postdoctoral Affairs is conducting a survey to measure interest for and feasibility to establish a postdoctoral editing group. The "UF Postdoctoral Editors Association" would be comprised of postdoctoral associates and fellows and sponsored by the Office of Postdoctoral Affairs. This group will enhance scholarly communication by assisting postdoctoral authors with editing of written documents for language usage, punctuation, and organization. This service will be most advantageous to postdoctoral scholars for whom English is a second language, but the service will be open and free to all postdoctoral associates and fellows at the University of Florida. Our goal will be to facilitate postdoc-mentor interactions during the writing process by minimizing time spent on basic writing skills. Our volunteer editors would primarily review submissions for clarity of meaning; we would offer no or minimal scientific review of manuscripts because this content should reflect critical thinking of the postdoctoral scholar and their mentor(s).

Please complete this short survey to indicate interest or to volunteer:

Postdoc Funding Opportunities

On the [Resources](#) page of the Office of Postdoctoral Affairs website, we have created a Funding Opportunities page which lists all the different types of funding available to postdocs.
