New, Updated Options for Research Computing Storage

UFIT Research Computing has updated its storage offerings. The UF prices, which are subsidized, have not changed.

The new storage option (\$25/TB/year) is called the "orange" option, while the existing /ufrc storage is now the "blue" option.

The options support different use cases, summarized at [Help > Getting Started > Storage](#). Replicated storage is no longer a service offering, though storage of older (historical) versions of files is available.

This can be provided with the tape backup option described at [About > Policies > Storage > Data Protection](#). Development of a disk-based backup option is also underway.

UF Research Computing only provides storage accessible through HiPerGator. Customers who previously purchased storage only accessible through their workstations and servers will be contacted to work out a transition plan over the next nine months. Going forward, all storage supported by Research Computing will require GatorLink authentication (same as Active Directory), with management of users and groups controlled by HiPerGator systems.

Researchers who would like to discuss their data storage options are welcome to contact Erik Deumens, Director of Research Computing (deumens@ufl.edu, 352-392-6980).

UF Postdoc Editors Association

The Office of Postdoctoral Affairs is pleased to announce the creation of the University of Florida's

Postdoctoral Editors Association (UF-PEA), a service to help postdocs who seek to improve English grammar and writing style. The UF-PEA is comprised of postdoc volunteers from multiple colleges across the University who will offer preliminary review of manuscripts, grant applications, posters, slides and other scholarly presentations. While this service will be most useful to postdocs who speak English as a second language, the service is free and open to all postdocs at UF. Our editors will provide feedback on structure and style of writing, but refrain from commenting on scholarship which is best honed by interactions between the postdoc and their mentor. UF-PEA will facilitate higher level postdoc-mentor interactions by reducing time spent on basic writing needs.

Postdoc Mentoring Awards 2017-2018

The Office of Postdoctoral Affairs is pleased to announce the continuation of the Postdoctoral Mentoring Awards for outstanding mentors of UF postdocs. The mentoring awards were established to encourage and reward excellence, innovation, and effectiveness in mentoring UF postdocs.

Information about past award recipients and the application for the 2017-2018 award are available on the [Postdoc Mentoring Awards website](#).

If you wish to nominate an outstanding faculty member for the award, please email [Cheryl Gater](#) with the nominee's contact information.

The application deadline is *November 30, 2017*.
